

# Are You a Fascist? If so, What Kind?

We hear the term Fascism used quite frequently these days and since very few people understand the full meaning of the term, we will elaborate on it.

Webster's dictionary gives the definition of Fascism as: "A movement toward nationalism and conservatism as opposed to inter-nationalism and radicalism."

Since this definition was recorded in Webster's dictionary, the term Fascism has taken on various meanings which are contrary to the original definition.

There are two types of **Fascist** in America today — one is the individual that is called a Fascist because he is a real and active American — and the other is the real culprit (Red Fascist) who calls the American a Fascist. This is very confusing, we know; however, this is just what the Communist planned. The more confusion there is, the more detrimental progress the Reds make in our government while we are calling our fellow Americans "Fascist".

The term Fascist first came to this country by way of the Moscow trained tongues of the Red Fifth Column. It was picked during the rebellion in Italy in 1919 when Benito Mussolini formed the Fascist Party and eliminated the Communist from Italy.

Fascism was very popular until Hitler, Stalin, and Mussolini became "bed partners" and decided to rule the world. However, like all agreements inspired by the devil, there was little unity and a triple double cross resulted. Fascism was restored again and anybody that opposed the Reds was immediately a Fascist and an enemy to the party.

When Franco managed to overthrow the Red dominated country of Spain after hundreds of Christians were murdered and raped, he too was a Fascist. All enemies of the Communist are Fascist, although the truth of the real definition is that Red Fascism is the only Fascism in the world today.

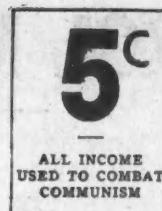

The true definition of Fascism in America as expressed by the actions of the only living Fascists (Communists) is — a radical, atheistic movement which makes its progress by lies, deceit, slander, immorality, and hate, with the purpose of subjugating the whole world to a dictatorship.

## NO PROPERTY RIGHTS — NO HUMAN RIGHTS

The following letter was received by Hon. Samuel B. Pettengill, Former Congressman.

"To me — as a G.I. who has seen how the rest of the world lives — the greatest thing about the Constitution is that it guarantees me the right to be left alone — left alone to work hard at the job of my choice and keep for myself and my family the fruits of my labor and self-denial. Nowhere else in the world do individual property rights receive the basic constitutional support that they do in America — and without property rights there is no such thing as human rights."

Thousands of Communist agents are here working night and day to put an end to the Constitution. What will you do about it?

## Communism, Disguised, Infiltrates United States

### RED DOMINATED SCHOOLS

#### DISCOURAGE TEACHING OF OUR BILL OF RIGHTS

By systematically working in our schools and colleges to break down love and knowledge of our country, Communists discourage study of our Constitution and the foundation stones of our American way of life.

**BILL OF RIGHTS UNKNOWN BY MAJORITY OF AMERICANS.** According to a report in the Denver Post, only 21 per cent of the American people can identify the Bill of Rights, and 31 per cent have never heard of it. Two out of every ten persons, interviewed in a nation-wide poll by the National Opinion Research center of Denver university, could correctly identify the Bill of Rights. The poll also showed that nearly four out of every ten have heard of it, but have no idea what it is, three have never heard of it, and one has a confused or incorrect understanding. School teachers are partly to blame for this ignorance. **Any school teacher, whether in elementary, high, college or university, who intentionally omits or diverts from teaching our American Constitution and Bill of Rights should be immediately dismissed.**

### ALIENS ENTERING U. S. AT RATE OF THOUSANDS EVERY MONTH

Since it is known that an average of two thousand aliens are entering the United States illegally every day, making a total of approximately sixty thousand per month, returned GIs can well wonder where these refugees are living and how this affects the housing problem.

One thing of which you can be sure, the highly financed crowd that has been dominating the departments of government for several years and makes possible this illegal entry is also seeing that the refugees are being housed, regardless of the situation the GI faces.

Those Citizens who are interested in upholding our laws and saving our Constitutional form of government should be alarmed that a situation exists where illegal entry aliens have been streaming in for some time and the present administration is helpless.

Who are these aliens who are entering the U. S. illegally? Most of them are Reds from all parts of Europe, organized by Communist agents and put thru our borders to the Communist underground agents here — **with the Cooperation of Communists in key positions in our Government departments.**

They are packing this country, as they have on a smaller scale in Spain to get ready for the revolution and to take control. Franco jails them, but we house and feed them!

### MINISTERS AND OTHERS CRITICIZED

FOR FIGHTING REDS, DESPITE EVIDENCE BEFORE CONGRESS THAT AGENTS SEEK TO DESTROY OUR FORM OF GOVERNMENT AND BANISH ALL RELIGIOUS WORSHIP

Recently we learned of a minister who had been criticized by a few ill-informed citizens because of his vigorous opposition to Communism. It was suggested that he "keep out of politics".

This is the kind of thought and action which has allowed Communism to thrive in the United States. As long as citizens go no further into the study of Communism than to believe it is just another political party, Communism will continue to grow and to gain control in our country.

First those interested (and every American certainly should be!) must learn that Communism is atheism, that Communist activities are controlled, enforced, directed, and promoted by atheists. For example, of the 435 Communist writers which a Congressional Committee says are in the movie industry in California, we say there are 435 atheists. Most of them incidentally are refugees who are here on six-month visas issued several years back. The movie industry produces pictures to gradually remove from your children all religion and love of God.

This same condition of atheism exists in the Communist Front organizations. For instance the Joint Anti Fascist Refugee Committee of 192 Lexington Avenue, New York, has financed the revolution and Communism in Spain, in Czechoslovakia, and has set up the Godless regime of Marshal Tito in Yugoslavia as a service to Josef Stalin. These Communist Atheists are out to destroy religion in Europe first and then will concentrate on the United States.

When Harold J. Laski, the Atheist, broadcast from London over our air waves to those assembled in Madison Square Garden, the broadcast was arranged and all expenses taken care of by the Communist front and atheist directed Anti Fascist Refugee Committee.

If this courageous minister, of whom we spoke in the beginning of this article, would not oppose Communism, he would be a hypocrite, preaching Christianity and refusing to expose Christianity's greatest enemy — a world wide secret political organization, which has slaughtered more than twenty million Russians and approximately ten million during the last year and a half in Russia-occupied Europe.

Would this man be a true minister of Christ if he did not openly oppose the anti- (continued on page 2, col. 1)

**COMMUNISM DISGUISED AS POLITICAL PARTY INFILTRATES U.S.**  
(continued from first page)

Christ of Communism? Prayers are indeed valuable, but they are not enough in these troubled times. "God helps those who help themselves" is still true.

The following will further illustrate, as we mentioned earlier, that the Communist Party is not "just another political party". This information is taken from Report of the Committee on Un-American Activities, House Report No. 2233, 79th Congress, 2nd Session.

A majority of ill-informed members of industry, finance, education, and religious institutions sneer at the power and progress of the Communist Party in the United States. These same individuals often point out that the Communist Party is a legal party and not a member of a subversive movement, and is merely an expression of a small alien minority.

To indicate the extent to which these persons have been misled by the propaganda agencies operating under the direction of Communists and fellow travelers in America below is presented the statement made by Joseph Stalin, nominal head of the Communist Party in Russia and the dominant figure of the movement throughout the world.

**"I consider that the Communist Party of the United States is one of the few Communist Parties to which history has given decisive tasks from the point of view of the world revolutionary movement. The revolutionary crisis has not yet reached the United States, but we already have knowledge of numerous facts which suggest that it is approaching. It is necessary that the Communist Party should be capable of meeting the moment of crisis fully equipped to take the direction of future class wars in the United States. You must prepare for that, comrades, with all your strength and by every means; you must constantly improve and bolshevize the American Communist Party. You must forge real revolutionary leaders of the proletariat who will be capable of leading the millions of American workers toward the revolutionary class wars."**

This statement by Mr. Stalin has never been repudiated and is officially recorded on page 17 of House Report No. 2 of the Seventy-sixth Congress.

It is important to reconsider this charge by Stalin, because the American Communist is no longer useful in production of munitions and materials to keep Russia from defeat. The Communist Party of the United States have publicly and without reservation, as late as the summer of 1945, made it clear they will renew class warfare, agitation between the races, and in other ways promote revolution in this country. It is clear that these public announcements made as recently as 1945 are in perfect accord with the directive of Joseph Stalin which was recorded in the Seventy-sixth Congress.

The lies and the deceptions used by the Spanish front organizations and their propaganda to create in the minds of the people of America the impression that the streets of Spain are covered with blood, is best shown and repudiated by the conclusions set forth in the Congressional Record of December 18, 1945, based on the book recently published by our wartime Ambassador to Spain, Carlton J. H. Hayes. Mr. Hayes summarizes the efforts of the anti-Franco groups as follows:

"Public opinion in the United States, as

# REDS CONTROL MOVIE INDUSTRY

There are millions of good Americans who detest Communism and would like to do something to help stop it. They will be surprised to learn they are helping to finance Red Fascism, not only here in the U. S. but all over the world. One of the main sources of finance for Communist Fronts is the Movie Industry. A Congressional Investigating Committee reports there are 435 Communist writer alone in the movie industry, most of whom are not even Citizens. These and hundreds of others in this industry receive enormous salaries due to the generous public at the theatre ticket offices.

Some movie personalities who are non-Communists are placed in a position where

they must join the **Real Reds** in kicking back into Communism a good part of their earnings. **Where did this money come from? From Americans!** The wealth of these Atheists is made possible by the American system which they are determined to destroy. There is no sense in Americans financing Communism with one hand and trying to stop it with the other.

**Edward G. Robinson**, born Emanuel Goldenberg in Bucharest, Roumania, and **Orson Welles** are two of the most liberal backers of Communist Fronts. The two are identified with at least 50 Communist Fronts to which they either belong or give support. To give their **Red** record would require a book.

Edward G. Robinson lately congratulated the **Abraham Lincoln Brigade of Church Burners** for their work in Spain when more than 20 thousand churches were burned. He is a sponsor of the Communist front, **American Youth for Democracy**, a strong supporter of **Independent Citizens Committee of Arts, Sciences and Professions**, and of the **Civil Rights Congress**, which is a front and interlocks with the Seditious **International Labor Defense**. He is behind the **Federation of Constitutional Liberties**, which a Congressional Committee branded Communistic. In this organization he has as associates **Paul Robeson**, so Red he educated his son in Russia, and **Vito Marcantonio**, the Red Congressman.

Among the many Communist Fronts with which Robinson and Orson Welles are connected is the **Joint Anti Fascist Refugee Committee**, which financed revolution in Spain, is doing it again now, and financed and set up **Marshal Tito** in Yugoslavia.

Americans should know when you support these **Red Movie actors** an important part of your money goes to finance Communist Fronts. The combined income of these two is above one-half million per year.

Your paper has educated me concerning Communism. Previously I was ignorant of the snares of Communism but thanks to you there is one more staunch defender against this disease. I can now confidently argue with any Red sympathizer. I admire your perseverance and truthfulness.

I am only a junior in high school but I carry on my own campaign for your newspaper. I distribute it among my school chums, teachers and neighbors. A.R.

crystallized or reflected by our journalists and publicists, has been, and still is, predominantly hostile to the existing regime in Spain. This opinion is reinforced, moreover, by a somewhat similar attitude prevalent in England, by the partisan propaganda of exiled refugees from the Spanish civil war residing abroad and by the interested and denunciatory propaganda emanating from Soviet Russia and its inspired press and radio."

Boston, Mass., Oct. 24, 1946

Gentlemen: A friend of mine sent me copies of your splendid magazine and herewith is a check for \$2 for a year's subscription. Please begin it with the issue following that of October 20. I am 100% with you in your fight against Communism. EPG

Irvington, N. J., Oct. 22, 1946  
Gentlemen: I am enclosing a postal note for the amount of two dollars (\$2.00) in behalf of my husband, which he would prefer you use for the continuation of your excellent work in attempting to enlighten individuals as to the dangers and pitfalls of Communism. May you enjoy success in your undertaking.

Are you willing to get hurt to save America from Red Slavery? The Communists are trained to die for their "cause" as the early Christians died for Christianity.

You had better prepare and steel yourself to go the limit to save your country, your home, your Church and family. Aggressive work now may be the means of saving your life within another year or less.

# WHEN RUSSIA GETS MAD, STAND BY FOR ORGANIZED CONFUSION

In event of war with Russia, the only way we could expect to win would be to wipe Moscow, Petrograd, and all Russian cities off the map the first day with atom bombs. Then call out the National Guard in all forty eight states along with all available armed forces and put down the organized Communist revolt that would have started immediately.

If Russia, too, would have atomic bombs (which we do not think she has **yet**), then we are reminded of the verse of the hillbilly song, "A peanut sat on a railroad track, its heart was all a-fultter; the train came down the railroad track, toot-toot -- peanut butter." We would not have even a "toot-toot" to warn or prepare us.

If any influence or force prevents us from using the atomic bomb, here is what the United States will face. This is borne out by official statements made by Russian leaders, Josef Stalin, the Communist Party in Russia, and the Communist Party of U. S.; by what has recently happened in all European countries; by the atrocities in Spain before General Franco was victorious and the threatened Communist-organized revolt against the present Spanish Government.

For years International Communists with experience in many countries have been moved into the U. S. underground workers. They have been advised to attract no attention, to direct and educate and propagandize. They are supplied with unlimited funds to buy and to trick people to act as stooges or decoys -- for example, Henry Wallace, Harold Ickes, and Eleanor Roosevelt, who was placed on U. N. by this same crowd to do a certain job.

This crowd of Reds and fellow travelers have during the war years been busy setting up Communism while we patriotic innocents were busy winning the war. This red crowd have had their hands in our treasury -- up to the elbows.

Attorney General Clark admits that for some time now there have been, into the U. S., an average of two thousand illegal entries a day -- sixty thousand a month. Many of these aliens are killers from Europe and murderers who were driven from Spain into France by Franco. They live for one thing -- to obey the orders of Communism. Their pay -- existence until a revolution -- then privilege to rape and rob. That is the pay promised and freely given to the Red soldiers who now occupy Europe. That would be the pay of these fanatics here in the U. S., in your homes.

Plans have long been made for this revolution. Informed persons say it was set for September, 1941, when the Reds here were determined to prevent us from going to war against Germany. The break between Germany and Russia, in June 22, 1941, transferred Germany from the love list to the hate list and there was no revolt. We were informed at that time that each policeman in New York had three Reds assigned

to take care of him when the planned revolt started.

The reason Stalin is so cocky is that he knows the strength of his Fifth Column here and he realizes we are in no position to wage a war, either defensive or offensive. He knows he has thousands of experienced butchers in the United States, Reds who have been through bloody disruptions in European countries and are trained and hardened. They could catch us off guard -- soft and confused, to face their well-worked plan -- a plan where every street, radio station, power plant, phone facility, has been mapped. Communism would not be mentioned in this revolt, in this plan; it would be working men revolting against Fascists here who want war with a peace-loving country. Many well-meaning GIs would be impressed by the appeal to prevent our entering another war, hence would lend themselves by the million to this force to cripple and prevent our mobilization and the result would be **Civil War in the United States**. Millions who had no use for Communism would later learn they had helped set it up here and would be promptly shot for realizing their mistake.

Communists in labor unions would have many non-Communists duped to join the revolt. We would be at war with an enemy outside and inside. No factories would produce arms; all transportation would stop; large supplies of hidden arms would be distributed to the Reds; telephones and radio stations would be in the hands of the Reds within an hour; police in cities would be surprised and eliminated quickly; shipping would be tied up; seventy million workers would be called out to help overthrow the United States of America.

During the last week in September, the executive bureau of this Communist organization (W.F.T.U.) met in Washington to prepare for just this. The unanimous resolution called for unity of all workers, stating "We must make war against war psychology some people would like to develop between the U. S. and the Soviet Union." They resolved to continue efforts to bring about a revolution in Spain and demanded the U.N. break relations with Spain.

Is there any way out for the United States? Yes, one way -- but only if we can pull ourselves together and act quickly. Our Army Generals will tell you if we had not learned so much from Germany to improve upon their knowledge, Germany would have won the war. We learned from their superior tanks, their rocket planes, their V2 rocket bombs, and many other important things. Here is another instance in which we must learn from Germany or we are gone.

Russia found she was blocked by Germany in the spread of Communism over Europe. Germany was at that time in the same position with Russia as we are today when thousands of Communist organizers were being sent into Germany to help turn that country to Communism. Germany knew war was coming and she would not be able to fight an outside foe which was to have been Russia, while large numbers were ready to sabotage her from inside. Hence to get ready, Germany arrested all Communists and fellow travelers possible.

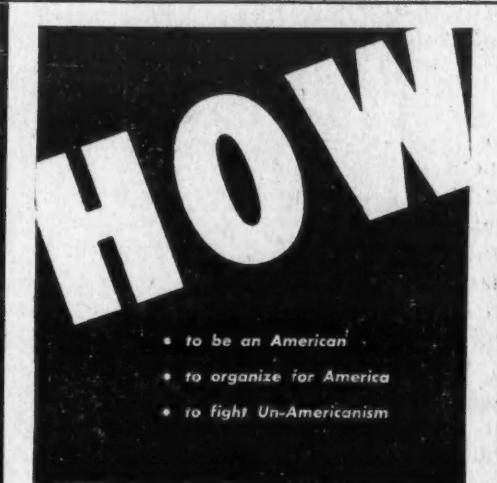

If we are to face Stalin with a solid American front, we must declare martial law in every state; the National Guard must work with the F.B.I. to fine-comb the U.S.

## Get Wise! Organize!

WELL? Are you an American? What does your conscience tell you?

If you are -- -- -- then lets get going -- -- -- there is a job to do -- -- -- a job for **Americans** -- -- -- to organize for America.

The pamphlet **HOW** by Joseph P. Kamp contains valuable information for all Americans who wish to become active against COMMUNISM.

and lock up all the Reds, illegal entries, and Red Army officers disguised as refugees; then we can tell Mr. Stalin to attend to his own **damn** business -- -- **and he will**. But he will not do so as long as he has us crippled and our State Department filled with Reds and Red sympathizers; not so long as he has working in the U. S. men like Gerhard Eisler (Hans Berger), one of the directors of Communism in Germany before the war, who has been here for six years on a permit to pass through from Mexico to Canada. (Speaking of Mexico, Communists have been using this country for concentrating Red organizers to ease into the U. S., just as they used Czechoslovakia as a transmission belt into Germany.) After Louis Budenz named Eisler as Stalin's top man in the U. S., Eisler defied the F.B.I. to arrest him. Eisler knows who is the power in this country. Eisler knows Stalin has more to say about running this administration than Harry Truman. Eisler knows what happened to the Russian spy we tried in the state of Washington. Eisler knows what happened to the six Communist spies caught stealing secrets in our State Department. Eisler knows what happened to the five Communist spies caught stealing valuable secrets from Army experimental quarters in Aberdeen, Mad. **NOTHING!**

So as he goes up for a hearing before the Un-American Activities Committee on November 22, **Eisler fears nothing**.

# The Life of Our Republic is At Stake

By The Observer

Trying to make DEMOCRACY work we have piled up an almost insurmountable debt. The fact that democracy is not a desirable tendency and will not work, is as old as civilization itself. This is a solemn warning against the dangers of direct government toward which we have been drifting since the latter part of the nineteenth century.

Is it not about time we stood up as the only great REPUBLIC of the world, go back to the principles of the REPUBLIC, when Godliness, reverence for the Almighty, clear thinking and accurate reasoning, a strong right arm and hard work were the principles of the industrious, moral and home loving free people, whose love for peace was known throughout the world?

The Constitution of the United States can be read aloud in twenty-six minutes. There is nothing one can do with so great profit to gain a clear concept of the cause and remedy for the awful and deplorable times in which we find ourselves today than to read and study the Constitution of the United States. Supposedly educated and intelligent Americans will be surprised to learn to what extent they have been gulled by ambitious, governmentally ignorant and crooked politicians. If we desire to continue as a free people, we should know the nature of our Constitutional rights and how to protect them.

BACK TO THE REPUBLIC should be the watchword of every patriot in this country. FOR THE LIFE OF OUR REPUBLIC IS AT STAKE.

fused ourselves and fallen victim to the ballyhoo of factious men who use the word "Government" as a catchword - semantic - for their own aggrandizement. Hence it becomes increasingly important to learn habitually to distinguish the Government of a nation from its Administration.

"There is an important sense in which the Government is distinct from the Administration. One is perpetual, the other temporary and changeable. A man may be loyal to his Government and yet oppose the peculiar principles and methods of the Administration." — Abraham Lincoln. Now, the basic principle of our particular government is its Constitution; the Administration comprises men, both Democrats and Republicans, who administer the Government for us.

## THE ADMINISTRATION IS NOT THE GOVERNMENT — NOT YET.

## THE KREMLIN ACCOUNT

Washington reports have it that we are asking Russia to close out her lend-lease account. Over \$11 billion worth of goods have been shipped across the sea on that account. Russia has returned us about \$2,000,000 by reverse lend-lease. That leaves the American people in the red to the Red for nearly eleven billion.

We bought a lot of victory with that money even if we didn't get much good will. It is easy to forget that in days when victory is a fact but the Atlantic Charter sort of paradise is off. But it is certainly not time to open it again under a new name, as was quite properly done with Britain.

Just what we can recoup out of that eleven billion remains to be seen. The original agreement also calls for the elimination of all sorts of trade barriers and a rolling up of the sleeves for the job of making the Atlantic Charter work. We haven't much hope on that one.

We hope that American diplomacy will recoup something on the Russian lend-lease account. We doubt if it will be very much. Most of that eleven billion should by right be credited to the cost of victory. It might be well, though, to credit some of it to experience. Boston Traveler, Sat., Nov. 2, '46.

## ELLIOTT GOING IN RIGHT DIRECTION

Elliott Roosevelt and his wife, Faye Emerson, have just taken a plane to Moscow. Judging from Elliott's book, particularly with reference to his father and Stalin, it appears Elliott is now going in the right direction.

But it is certain that Elliott will get a warm welcome from Stalin. Is it not odd that at a time when most people are not allowed to stick their nose behind the Iron Curtain, others are welcome? Joe Stalin knows his friends. F.D.R. handed over a good part of the World to Stalin at their "Conferences" — Korea, China, Poland, Estonia, Latvia, Lithuania, Hungary, Roumania. He also agreed to slavery for the German people, and allowed Stalin's agents so much freedom here they almost control the U.S.A.

If Elliott needs a letter of recommendation to Stalin, any one of the Communist fronts here would be tickled to give one to him. But, in spite of all these favors to STALIN by Elliott's father, we bet Elliott will not get any two hundred thousand dollar loans in Russia to be settled for two cents on the dollar. While F.D.R. was President and the Government had a suit pending against A.P., it appeared a good time to hit Mr. Hartford, President of A.P., for a loan. (James used to touch some big companies for their insurance business when they were caught in the same position and he, too, prospered). After Elliott's loan was settled for two cents on the dollar, with pressure from F.D.R. through Jessie Jones, and after F.D.R. died, the Government went ahead with the suit anyway. The irony of it all!

So Elliott goes to Russia. Wonder what's cooking? When Earl Browder returned from Russia, he went into the Red Book business. Elliott writes a book and takes Faye off to see Stalin. This tribe does have an eye for business.
